

Name _____

Fact Families

Choose a fact family and write the number sentences that belong with that family.

Explain why some fact families only have two number sentences. What do the sums of these families have in common?

Draw a line through any row of number sentences that is not a family of facts.

$2+6=8$	$8+2=6$	$8-2=6$	$8-6=2$
$5+3=8$	$3+5=8$	$8-5=3$	$8-3=5$
$4+2=6$	$5+1=6$	$6-2=4$	$6-5=1$
$7+2=9$	$2+7=9$	$9-2=7$	$9-7=2$
$5+0=5$	$0+5=5$	$5-5=5$	$5-0=0$

Complete each fact by writing the number in the box.

$\square+7=9$	$\square-2=7$	$2+\square=9$	$9-2=\square$
$4-\square=0$	$0+4=\square$	$4-4=\square$	$4+\square=4$
$8+\square=10$	$2+\square=10$	$10-\square=2$	$10-2=\square$
$6+4=\square$	$4+\square=10$	$10-4=\square$	$10-\square=6$
$8-5=\square$	$\square+5=8$	$3+\square=8$	$\square-3=5$
